Your employees are busy, which is why content in Accel5 was created for self-directed, micro-learning. Content can be consumed in five minutes or less. Employees can learn at lunch, waiting for the train, or between meetings.

Customization facilitates learning on your terms

Landing page design, topics, images and more can all be customized to reinforce your learning priorities and branding. Your own content can be added to provide a single portal to access all informal learning resources. External content can also be accessed from Accel5, or Accel5 content can be integrated into an LMS, SharePoint or other platform. Single Sign-On enables one-click access to content.
